THE RIFLE.

The third match of the Canadian Rifle League was shot off on Saturday afternoon last, when the home team made a little better shooting than at the match two weeks previous (but not near their score at the first match), which brings them up to sixteenth place in the league of fifty-two teams. The 54th battalion, of Windsor Mills, Que., made the highest score this time, with 830 points. This is an extraordinary big score, for a ten-men team, compared with scores made at Toronto and Ottawa during the past seven years, and more especially coming from a battalion which was never heard of in Canada as having a shooting team, and having only a few well known shots. It has been hinted at in the Militia Gazette that a great deal of this big shooting could be made by the markers in the butts, and not by those shooting. The article in the Gazette says:—"The markers have in their power to build up a team total quite beyond the expectations of the competitors themselves, with absolutely no check." The same article gives the average scores per man for the teams that shot at Ottawa and Toronto during the last five years, in which it shows the highest average score per man to be 81⅞ points and one team won with an average per man of 69½ points. The only way in which a check could be had on the marker would be that new cotton or paper targets be used at each match and at the conclusion of the match the range officer to sum up the shots as shown, for it is absolutely necessary that every team shooting should have perfect confidence in the correctness of the scores to make the league a success.

The following is the standing of the teams, with their last score and aggregate.

ROUMANIAN IMMIGRATION

The Montreal *Witness* reports an interview with Dr. Joseph Klemm, Prof. of Agriculture, Roumania, who has come to this country in the interests of Roumanian emigration, and his immediate object is to take a trip through the country to discover what kind of a place it is. He will visit Manitoba and British Columbia, and if he finds a place that he thinks will suit he will wire home and 5,682 Roumanians will come out. He brings with him letters of introduction from Sir Charles Tupper to most of the ministers and to the officers of the Immigration Department. These people have a good deal of money, and desire to leave their country because of the difficulty of acquiring title to the farms they occupy. They are tired of paying rent and are anxious to go where they can secure property that will be their own.

The above item adds increased importance to the telegrams which have passed between Mayor Knowles and Mr. McKay chairman of the immigration committee, and illustrates the wisdom of steps being taken towards making our immigration committee a permanent institutioa, with funds always at their disposal, so that when other circumstances arise, similar to those which have occurred in connection with Dr. Klemm, they will be in a position to act promptly.

We look forward with some considerable satisfaction to the visit our settlement will, during the next few days, receive from Dr. Klemm. We feel satisfied that his trip here will prove of advantage to the people he represents. Surrounded as we are by nearly every description of country, it would seem strange were its many advantages over an exclusively prairie section not appreciated by people looking for new homes. Should a section of his people be located in our midst, it is certain to prove but a *nucleus* of a much greater number frem the same country. Mr. Cullen, recently appointed by the Lieut.-Governor in council as emigration agent to Europe, speaks in the highest terms of Roumanian people as a desirable class of settlers and he expects to do most of his work among their settlements. The railway is now here; if a start in settlement from this people can be made, the tide of emigration from their country will continue to be in our direction.

During the coming season we hope for many visits from delegates representing sections of people in Eastern Canada and Europe. Should such prove to be the case the time and capital of our emigration committee will be taxed to their fullest extent and the public should start preparing themselves to give active assistance. The committee spent and will be obliged to continue sarificing much of their valuable time in connection with the work, but from what we can gather in conversation with them the funds at their disposal are not of such large proportions that much travelling about the country can be indulged in, unless those owning teams come to their assistance. We understand that already volunteer offers, in different ways, have been received from a few. Every man within the district is interested in having it filled up, and should not hesitate in offering his help towards securing so desirable a result.

We hope soon to hear that a party of Ontario delegates are on the road for the purpose of examining the natural advantages we offer to settlement. They must and will receive the same attention the public, through their emigration committee, have arranged to show Dr. Klemm. A start is made, and we are satisfied that a lively season's work is already cut out for our committee. This season will, to a large extent, decide the extent and class of immigration we will secure next year. Let all take an interest in the work and difficulties will be scarce. Farmers particularly should see that a full list of teams, for committee use, is constantly in the hands of its active chairman, Mr. T. McKay.

It is a matter for regret that our settlers are so slow in taking advantage of the statute labor ordinance. The advantages of being formed into a statute labor district are considerable, while the outlay to the actual settler is very small; farmers should read up this particular ordinance and take advantage of its provisions. Buckboard farmers and non-residents should be forced to assist the settler in repairing roads throughout our several settlements.

In the future when Medicine Hat's public men undertake to make history for the Territories, they may be expected to consult with important centres before dates and place of meetings are fixed, for Medicine Hat as a centre does not seem to capture the crowd. We clip the following from the local paper of that village:—Not a success. The Northwest convention accomplishes nothing. Only ten delegates present. Two of the delegates were from Medicine Hat.

The Medicine Hat general hospital was formally opened on the 4th inst by His Honor the Lieut-Gavernor. The same evening the ladies prepared a magnificent banquet for the visitors and citizens, to which about 300 ladies and gentlemen sat down. Supt. J. Niblock, the founder of the hospital, presided. His Honor the Lieut-Governor, Messrs. Davin, M.P., Parker and Dr. Brett, M.L.A., were the principal speakers. All were high in their praises of Mr. Niblock, and congratulated him on the success which crowned his efforts.

It is reported in Ontario papers that while addressing a Roman Catholic congregation at Stoco, Archbishop Cleary remarked that his hearers should pay no attention to what Mr. Meredith and his friends might say, because he (Mrr Meredith) was an "imp of hell and a companion of the devil," and the same was true of the Equal Rights party. The commandments, "judge not lest ye be judged" and "love your neighbor as yourself" are apparently at a discount in Ontario when a local election is going on.

DETROIT, Mich., June 9.—A fraudulent divorce has just come to light here. During May a letter was received here from D. McIntosh, Muscow-pe tung's reserve, Regina, N.W.T., relative to a divorce he supposed he had obtained through the Wayne Circuit Court from Shepassanesick McIntosh, an Indian woman. The letter stated that the writer had applied for a divorce on the ground of adultry through W. A. Reid, district attorney, and in due time he received a paper represented by Reid to be a certified copy of the original decree. McIntosh wanted to re-marry and to make sure the divorce had been regularly granted wrote to the judge whose signature the decree purported to bear. The investigation which was instituted led to the conviction that Reed was the man that engineered the bogus divorce, although he denied it. An officer was sent to arrest him when it was found he had left for Canada, from whence he had come two years before. The divorce cost McIntosh $200. Reed can be arrested in Canada. It is feared that many others have been swindled by Reid who is reputed to have bagged quite a large number of divorce cases.

BIG TREES NEED BIG MACHINERY.

British Columbia's resources in the way of forest products are year by year getting to be better known. And as the quality of her trees becomes appreciated, not their dimensions only, but their adaptability for building and decorative purposes is perceived and their consumption increases. We observe, for instance that the Brunnette Sawmill Co., at New Westminster, which is operating on a large scale among the large pines and cedars in the vicinity of that place. They have just procured from the Waterous Engine Works Co., at Brantford, some machinery which is especially suited for the extraordinary length and thickness of the timber on the Pacific coast. For instance, the sawmill carriage, which is one of the largest ever built in the province is described as consisting of "six girder steel log seats, extending seventy six feet from centre of first to centre of last block. Each block was formed of two 10 inch steel girders, with a heavy steel plate riveted on top of each girder, surmounted by a very heavy knee piece, set forward by three-inch screws made of steel. Under each log-seat were two three-inch steel axles with heavy steel V wheels on the front and flat wheels with a flange on the back. These ran on a steel track. This immense carriage was built to take in logs seven feet in diameter, eighty feet long, weighing eighty to 100 tons each." The carriage itself without any woodwork weighed more than twelve tons. The setting and receding device on this carriage is a new departure.

On the same car was shipped a "King Edger," made to take in sawn lumber thirty inches wide, using six saws. This edger, with its appurtenances, weighed in the vicinity of five tons. Such heavy machinery as this for cutting lumber is unknown, we believe in the Ontario trade, but is the only class that will stand the immense timber of the Pacific coast. At the mining district of Nelson City, which is reached over the Northern Pacific to Kootenay, Idaho, and thence by team to Nelson, is to be a sawmill, with edger, planer, and shingle machine, the whole supplied by the Waterous Company. We understand the same firm has received an order from the Northern Pacific Lumber Company for engines, boilers and barner required in their new mill at Fort Moody B.C.—*Monetary Times.*

The *Graphic*, Chicago's popular illustrated weekly, is publishing a beautiful story of Canadian life, by Mrs. Mary H. Catherwood, author of the famous "Romance of Dollard," the story of "Tonty" and other charming chapters of Canadian history and tradition. The *Graphic* story is entitled "Children of Ha-Ha Bay," the scene being laid successively near St. Alexis, Chicoutimi and Tadoussac. Marie, a fair orphan girl; her grandfather, a hermit, at Chicoutimi; Ignace, a brave young forester, and Justine, his sister, are the well-drawn characters in this, the best of shorter stories. The three issues containing this beautiful sketch (finely illustrated by Mr. A. B. Davies,) may be obtained of most newsdealers, or they will be mailed by the publishers on receipt of 30 cents.

The last issue of the *Dominion Illustrated* is rich both in portraits and in local scenes. The fine view of the Abyssinia, as it arrived at Victoria, B. C., is seasonable and sure to be appreciated. The portraits of the Newfoundland delegates mark an event which is of historical importance, as the present crisis in the island colony, with which their visit was associated, is certain to be memorable in colonial annals. In the views of the exterior and interior of King's College, Windsor, N S., we are reminded of the dawn of higher education in what is now the Dominion—King's being the oldest of our universities. The Collingwood scenes being timely and admirable, and the Cricket Match between Lennoxville and McGill will be prized by younger readers Altogether a fine number. The next number will be entirely devoted to Victoria—especially in connection with the Royal Visit— the representative of the *Dominion Illustrated* having taken special pains to secure the best possible photographs of the receptions, games, festivities etc., in that thriving insular capital. It is sure to be of unusual interest to all Canadians. Address: The *Dominion Illustrated*, 73 St. James street, Montreal.
